Our roots

The origins of Reece can be found in Australia. In the sixties, the founder of the brand made a trip Down Under and was overwhelmed by the beauty of the country's rich nature and the sportsmanship of the Aboriginals. They mainly lived outdoors, enjoying life to the fullest. They made the most out of the rich, varied, adventurous and, above all, beautiful landscape.

It was his inspiring visit to Australia that made all his previous abstract plans fall into place. He decided to introduce a brand to the sports market based on the spirit of the Australian way of life: adventurous and with an eye for beauty. The powerful brand name eventually became Reece, meaning 'enthusiast'. A name closely associated with his vision of sport and his experiences in Australia.

Our motivation

Even today, enthusiasm is a key ingredient in every choice and product Reece makes. We believe that without enthusiasm, there is no success. Only those who swim against the tide and put all their passion and fighting spirit into the game can make the difference.

Reece has grown into a teamwear partner for hundreds of clubs, including field hockey giants Oranje-Rood and SV Kampong and the hockey associations of Belgium and Germany. Together we have become European champion, World champion and Olympic champion for multiple times. But we still stick to our roots, designing clothes and accessories for teams and individuals with active lifestyles.

Deventrade

Reece is part of family business Deventrade, which was founded in 1985 by John Pothoven. From the start, Deventrade has specialised in team sports with its brands. With its own brands Reece and Stanno alongside Derbystar for the UK. Whilst being licensee outside of the UK for Opro and Hummel, Deventrade has grown into a global player in the team sports industry.

Today, the third generation of Pothoven is already working in the company, with the same conviction and motivation to give young and old the opportunity to experience the pure pleasure of sports. Not only on, but also off the field. We do this by completely unburdening clubs, teams and members and by entering into honest, sustainable long-term relationships.

Our strengths

20.000 m² teamsports

We believe it is important to be honest and transparent about stocks and maturities of our items and want to deliver quickly. We can achieve the latter because we keep stock. Next to our head office in Deventer is a warehouse covering no less than 20.000 m²! Through strategic forecasting and planning, we ensure that every article is sufficiently in stock. This way, we offer the best service to all our clubs and Retail Partners.

Towards a circular sports brand

Are you committed to sustainability? So are we!

As a sports brand, Reece wants to contribute to a better world for future generations. That is why we are committed every day to accelerating the transition to a circular economy and reducing our carbon footprint.

Our steps towards a sustainable future

For 1 Reece Rise shirt, 15 recycled bottles are used!

RECYCLED POLYESTER

We take the first step towards a climate-neutral business by making as many items as possible from recycled polyester.

Recycled polyester is strong; retains its shape; resists shrinking, abrasion and creasing and dries quickly. In other words: great material for sportswear production.

COOPERATION ARMY OF SALVATION RESHARE

In Europe, together with our partner Salvation Army Reshare, we offer a recycling and return service for our clubs.

All players, staff, volunteers and supporters can hand in used clothing and textiles in a textile container provided by us. These are then recycled or reused by the Salvation Army.

For more information and conditions for our Partner Programme please scan the QRCode or send an e-mail to support.uk@deventrade.com.

For Special Design enquiries, see following pages or visit our Special Design page.

Partner Programme

Deventrade, the home of Reece has always had grassroots sport at its core. Our company objective is to supply high quality product, competitively priced, well stocked and delivered quickly. Now more than ever, clubs need help purchasing kit and equipment to enable them to continue to survive.

We are proud to introduce our Partner Programme. The key objectives are to reward the clubs who spend money on Reece product by offering them extra discount through our nationwide dealer network. This is done by passing on additional discount to our clubs through our retail partners.

Clubs can choose any product from our comprehensive Teamsportcollection or choose your own specially designed kit. With Special Design you can create a kit along with our in-house designers that's unique to your club. Even the socks can be produced in the clubscolours, with a knitted club logo!

Ask your local Reece retailer about our partner programme, and the considerable benefits being a Reece partner club brings.

Special design

Together with you, we ensure that team spirit, identity and local pride come together in the club kit. Here, the possibilities are endless, especially if you choose Special Design!

These items meet everything you can expect from a top brand. The high quality and perfect fit you know us for, combined with a design that fits the character of your club. Even socks with your club look are possible!

We develop products according to our own Reece design philosophy. Function. Form. Appearance. In that exact order. To guarantee and safeguard this, everything is done under our own direction from our headquarters in Deventer.

The Reece

Reece is the proud partner of strong, unique and inspiring leagues, clubs, teams and players around the world. Together they form the warm Reece family - where character, passion, commitment and dedication are paramount. For us, you are not a number. We see every club as an essential player who should feel seen and heard. In this family, everyone is welcome. Are you next?

Reece

RED PANTHERS - NATIONAL HOCKEY TEAM - WOMEN - BELGIUM

PROUD

The Royal Belgian Hockey Association is considered an important player worldwide. The hockey men, the **Red lions** won the world title in 2018 and became second at the World Championship in 2023. Besides these titles, the Belgian hockey men also won a silver medal at the Olympic Games in Rio. The **Red Panthers**, the woman's team of the KBHB, is also

© WSP / Frank Uijlenbroek

PARTNER

working hard to become a giant in the hockey world. Both teams have now qualified for the 2024 Olympic Games in Paris. Since 2013, Reece Australia has been working with both the men and women of the KBHB. The outfits are given a lot of attention and each uniform is designed in close consultation with the Association. Outfits for true winners!

DIE DANAS - NATIONAL HOCKEY TEAM - WOMEN - GERMANY

QUALIFIED
ENROUTETOPARIS

PROUD

The collaboration with the German Hockey Association (DHB) has already been going on since 2015. As a proud clothing partner, we are pleased with the great results from the DHB. The first place at the World Championship for **the Honamas** (men) in early 2023 is a unique achievement we are very proud of. **Die Danas** (ladies) are also competing with the elite. Both teams

Reece

DHB
Deutscher
Hockey-Bund e.V.

PARTNER

have now qualified for the **2024 Olympic Games** in Paris. The uniforms are designed in close collaboration every season, to achieve the optimal appearance of the teams. A shirt that reflects the dynamics of the game, with details that tell the unique story of the team. In the current shirt, for example, the collar forms the beak of the famous German eagle, as a powerful symbol for unity and team spirit.

Our collection of sticks is composed in such a way that young and old, professional and amateur can always choose a stick that exactly matches your personal wishes. Every stick from Reece has its own material mix that results in a specific stiffness and the associated properties. In addition, the curvature, the balance point and the length of the stick are important. Differences are in line with various playing styles and therefore, with personal preferences.

MATERIAL

Most of our junior sticks consist of a combination of wood and fiberglass. While most senior sticks are made of synthetic material combinations of carbon and fiberglass. The ratio between these materials are decisive for the stiffness, the weight and feel of the stick. The exact composition can be found on each stick and in the product information text.

- » carbon: for extra stiffness and strength
- » kevlar: for vibration absorbing and impact reduction
- » fiberglass: for durability and strength
- » wood: for an optimal ball feeling

The percentage of carbon in a stick is an important indicator of the stiffness. The stiffer the hockey stick, the lower the energy loss in the bend of the stick. For this reason, players often choose sticks with a high carbon content when they're playing with strength and power. A less stiff stick enhances ball control. Ball control is important for the development of technique.

BOW / CURVATURE

Also, the curvature of a hockey stick is a very key feature. The curvature of the stick is referred to in millimetres and varies between 22 mm and 24,7 mm. The greater the curvature, the more technical the game of the player often is. Playing with a strong curvature therefore requires some practice. The bow indicates at what point the curvature begins in the stick. This can vary from a Regular Bow, Mid Bow, Low Bow to Extreme Low Bow.

REGULAR BOW

- » curvature of 22 mm
- » bow in the middle of the stick
- » classic curve for all-round use

MID BOW

- » curvature of 24,7 mm
- » bow in the middle of the stick
- » optimal balance between control and easily hitting the ball
- » strong curvature for technical players

LOW BOW

- » curvature of 24,7 mm
- » bow at the bottom of the stick
- » Low bow makes it easier to push
- » strong curvature for technical players

EXTREME LOW BOW

- » curvature of 24,7 mm
- » bow at the bottom of the stick
- » Extreme low bow makes it easier to push
- » strong curvature for the most technical players

LENGTH

Hockey sticks are available from size 24" up to size 37,5". Especially for children it is important to purchase the right size stick. A too short stick decreases the impact force and has a negative influence on the body posture. A stick that is too long will cause difficulties with ball control and develops the wrong technique. The table gives a good indication of the right stick length at each height. But make sure you always get good advice with this!

PADEL RACKET

Padel is rapidly gaining ground. Not surprising because this racket sport is described as interactive, fun and challenging. For those who want to start with padel, a short explanation: padel is a mix of tennis and squash. The count is the same as for tennis. Padel is played with four people on a padel court that is surrounded by glass walls. These walls are part of the game, so the ball is not out as quickly as with tennis, so that it is easier to play long rallies. Power is, therefore, less important with padel. This allows everyone to participate in this sport.

WHAT DO YOU NEED TO PLAY PADEL?

The most important thing you need to play padel is a padel racket! That is why we have a wide range of padel rackets available for beginners, intermediates, and advanced players.

WHAT IS THE BEST PADEL RACKET FOR YOU?

Factors that are important when choosing a racket are the material, the shape of the racket, the location of the sweet spot, and the weight. We will provide you with all the information you need to make a good choice. Let us introduce you to the padel rackets from Reece.

THREE PARTS FOAM, FACE, FRAME

Basically, a padel racket is made of three parts (frame, face, foam). From the outside, it might seem like a single piece but there are in fact three parts with different compositions fused together into a single shape:

FOAM (CORE)

The impact surface is normally made of EVA foam, covered with different materials, depending on the requirements of the customer.

All padel rackets have a solid impact surface that is filled with holes to allow an easy swing in the air. This surface may be hard or soft and determine the performance of the racket.

FACE

Face is the most important part of the racket, as it is the area where the ball hits and depending on their composition it gives different feelings and performance when playing. You can choose different fabrics to make rackets more durable and beautiful.

FRAME

It is an outside part of the racket, it starts from handle and revolve around the face area, it gives the racket its firmness and strength. You can choose frame according to your requirement e.g., fiberglass, 3K carbon, mix (50% carbon and 50% fiberglass).

COLLECTION INFORMATION

HANDLE

HEART

FRAME

FACE

FOAM
[CORE]

EVA
SOFT

EVA SOFT:
Low-density EVA foam provides a large amount of ball return and comfort during play.

EVA
MEDIUM

EVA MEDIUM:
Enhanced EVA foam that provides great ball return without losing power.

EVA
PRO

EVA PRO:
High-density EVA foam that increases the power and high-speed hits, with perfect control.

MATERIAL CHARACTERISTICS

	CARBON 6K	CARBON 3K	FIBER-CARBON	FIBER-GLASS
FLEXIBILITY When the material shows a greater degree of flexibility, the ball bounces more when it hits the padel racket.				
POWER More power can be a weapon, but it also comes at the cost of control.				
COMFORT Soft material absorbs more energy, providing more comfort.				
RESISTANCE The more rigidity, the longer the racket lasts

Reece

HOCKEYCLUB
ORANJE-ROOD

HC ORANJE-ROOD - WOMEN - THE NETHERLANDS

PROUD

HC Oranje-Rood is one of the largest hockey clubs in the Netherlands, located in Eindhoven. The men's team plays at the highest division for many years. A few of our ambassadors play for the team based in Eindhoven. The club colours of HC Oranje-Rood are, as the name

PARTNER

suggests, orange and red. These colours were created in 2016 from a merger of the Eindhoven clubs MHC Oranje Zwart and EMHC. Orange was the shirt colour of Oranje Zwart, red was the colour of the shirt of EMHC (both clubs had black as the second colour).

ORANJE-ROOD

HC ORANJE-ROOD - MEN - THE NETHERLANDS

Size Guides

On photographic reproduction and print some colour changes may occur between pictures and original products. We reserve the right to make product/technical changes (in design, colour, function and material), which we feel, will make for improvement of the product. We will not accept any responsibility for printing errors in the catalogue! All Reece products are suitable for printing, front or back.

Garment care: Reece products are made to the highest standards and are subject to strict quality control procedures. Garments however can discolour due to substances such as mud and grass, liniment or oil, and of course perspiration, all of which may not be fully removable by washing. The extent of discolouration can be greatly reduced by following a few simple procedures. Soaking and/or washing of the garment in water and detergent as soon as possible after use can reduce discolouration, using at least the same volume of water as the garment being treated. Always follow detergent manufacturers instructions, especially those intended to tackle heavy stains and avoid products containing bleach. Reece cannot accept any liability for discolouration or damage to garments resulting from staining caused by elements foreign to the materials used in manufacture.

All catalogue prices are recommended prices inclusive of VAT. The copying of products, in whatever form that may take, is forbidden without the prior written consent of Reece. Reece reserves the right to modify product specifications and prices at any given time.

Please note all time lines listed are purely for guidance and we reserve the right to make changes to these. It also applies that in the last year of the stated period, we can no longer guarantee complete size runs.

TEXTILES

MEN

Size	Chest	Waist	Hips	Body length

30,6	46	11,5	12,5
31,2	47	12	13

NOT SURE WHAT YOUR SIZE IS?

Use our size charts and measuring instructions to find out which size suits you best.

Our size charts indicate which clothing size best suits your body proportions. We have a wide range of sizes that may vary by garment, fabric or fit, therefore garments may vary slightly from the indicated size.

HOW TO MEASURE CORRECTLY?

1	Body length	Measure from the sole to the top of your head.
2	Chest	Measure all around where the chest circumference is widest.
3	Waist	Measure all around where the waist circumference is smallest.
4	Hips	Measure all around where the hips circumference is widest.
5	Calf	Measure all around where the calf circumference is widest.
6	Foot length	Measure from the tip of the toes to the back of your heels.

SIZES ARE MEASURED IN CENTIMETERS

SHIN GUARDS

Shin guard size		Body length
XS	Mini	110 - 130
S	Pupil	130 - 150
M	Junior	150 - 170
L	Senior	170 - 190

This size chart is only an indication. Shin guards should be tried on to determine the best fit.
